Risk category definitions:

- Numbered risk: Widely accepted risk based on published studies
- Elevated: Evidence of association, but penetrance/risk not well established
- Unknown: Possibly increased risk based on small studies, but not well described or widely accepted
- No known risk: Publications either show no risk OR risk not addressed at all in literature
- AFAP: Attenuated familial adenomatous polyposis
- GIST: Gastrointestinal stromal tumor
- PNET: Pancreatic neuroendocrine tumor
